OVERVIEW

- Vocabulary management: PVO design – Top-down approach

Slide No 4 VOCABULARY MANAGEMENT

- Relevant information culled from lexical resources
 - Definition + Examples
 - Synonyms + Antonyms
 - Collocations + other **associative lexical clusters**
 - Idioms + Phrases
 - TMRND (Tone + Mode + Register + Nuance + Dialect)
 - Cultural schemas & annotation
- Core message
- Linking and linearity

Why Google translation barely helps

VOCABULARY MANAGEMENT

Nghi Phan is 🙄 feeling anxious.

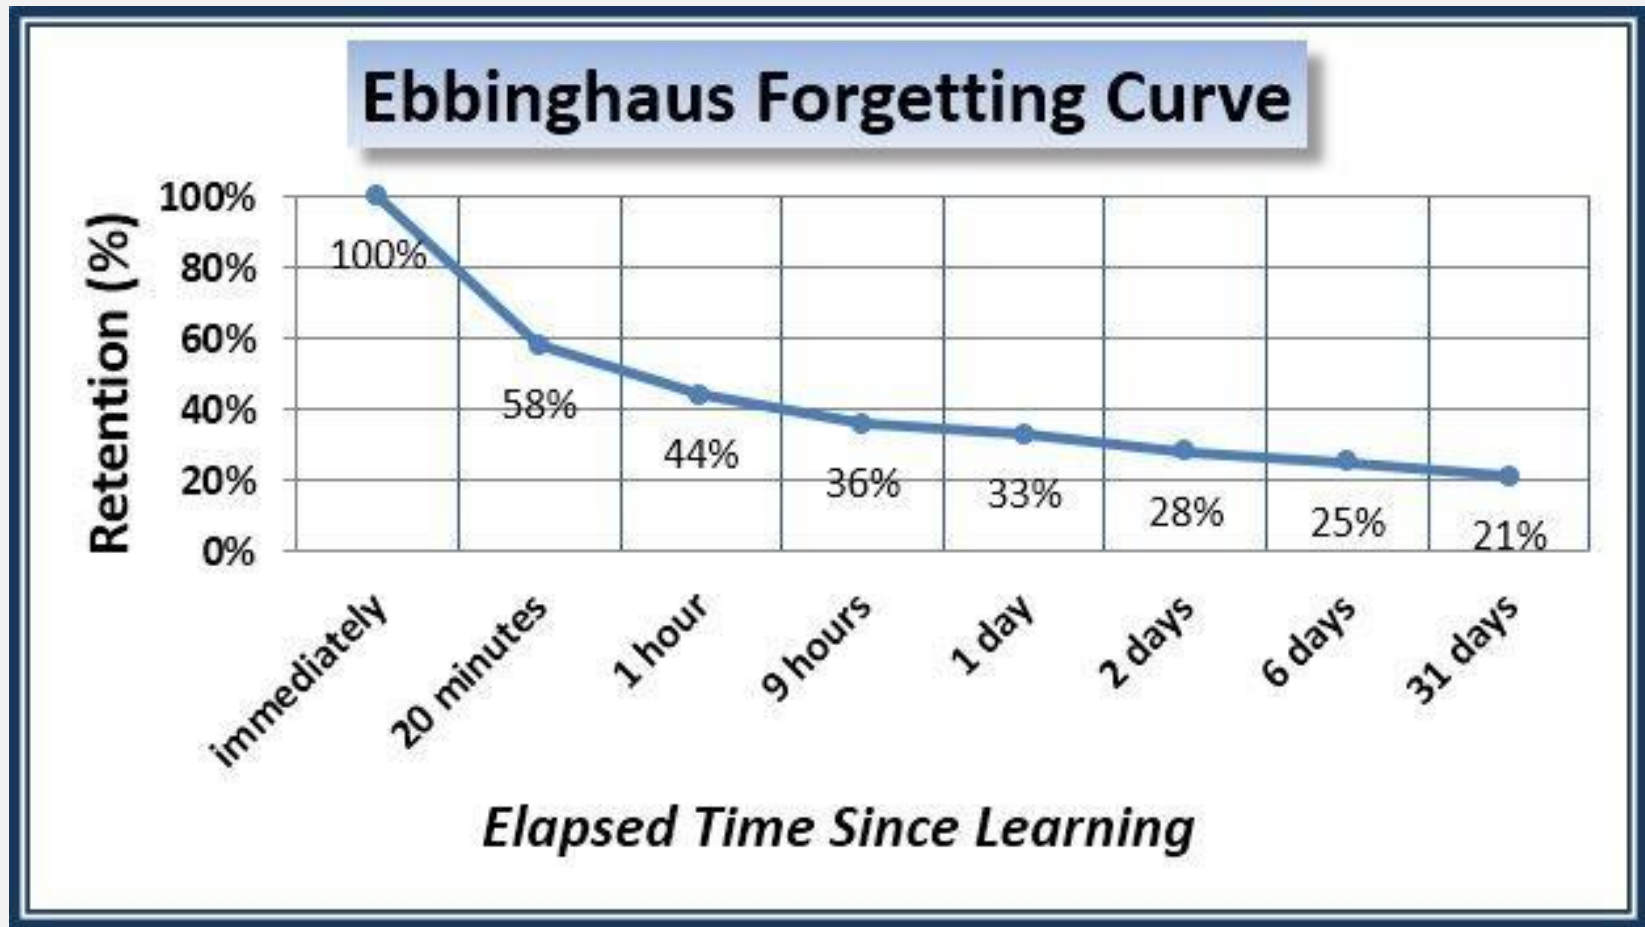

38 mins

Thưa thầy & các bạn,

Em đang gặp 1 số vấn đề, mà theo e ko bít phải vấn đề ko. e cố gắng học và ghi nhớ từng idiom, ngữ pháp thầy dạy, cố gắng xem clip để nhớ lâu hơn. Nhưng sau được vài ngày là bắt đầu rơi rụng, quên 1/3 số idioms 🙄 giống như học verbal GRE í.

e ko bít VD này phải do mình ko có ĐK tiếp xúc, chém gió vs Tây để đem ra ứng dụng ko. Nhưng e ko thể nào nhớ dc 100% số idioms thầy dạy hết dc nên e rất tiếc ạ 🙄 Xin thầy và các bạn cho lời khuyên tình trạng e bị vại...

VOCABULARY MANAGEMENT

VOCABULARY MANAGEMENT

Passive vs. active vocabulary

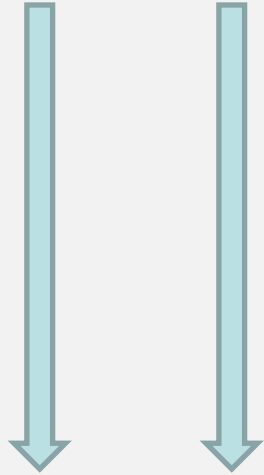

How We Learn and How Much We Remember

A range of techniques from flashcard, dictation & word list repetition to space repetition, mnemonic tricks & meditation

VOCABULARY MANAGEMENT

L1 vs. L2 **active** vocabulary development in terms of time, opportunities and input → we need **shortcuts** for L2

**Chép list từ
mnemonic techniques?**

Passive vs. **Active** review

1. Cách ôn lại từ vựng như thế nào? Em thấy PVO có thể giúp mình tìm lại từ đã học nhưng nếu chỉ là muốn ôn lại từ vựng thì nên làm thế nào ạ? PVO có giúp gì được trong trường hợp này không? Có cách nào khác ngoài việc đọc lại bài giảng không ạ?

VOCABULARY MANAGEMENT

L2 active vocabulary development

self-created opportunities for practice

VOCABULARY MANAGEMENT

L2 active vocabulary development

self-created opportunities for practice

+ associative external memory as a shortcut

Definition + examples

Synonyms + antonyms

Collocations + other associative lexical clusters

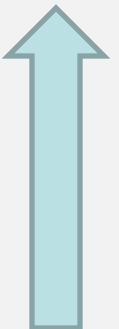

Idioms + phrases

TMRND

Cultural schemas & annotation

→ *logically organized* & *personalized* for better recall

core message +
linearity + linking?

VOCABULARY MANAGEMENT

Passive review still matters!

- top-down

PVO

- an inter-linked network of form independent **CONCEPTS**
- lexical structures stored embedded in *Examples* associated with a CONCEPT or a number of CONCEPTS

PVO

- an inter-linked network of CONCEPTS & Examples

FOOD

Show

Simple Mode

Full Mode

Grab me some good grub from the cafeteria downstairs, please.

The plan is widely used as fodder for horses.

Idiom	Nominal	Agent	Patient	Action	Described by	Describing	Other phrase
0	2	0	0	0	0	0	0

Children

EAT

RESTAURANT

Association

Association

FOOD

Parents

CONCEPT

- Use a single lexical item to represent a **CONCEPT**
- CONCEPT's definition: www.webster.com or dictionary.cambridge.org

CONCEPT

- How to choose CONCEPT-representing lexical item
 - common and neutral
 - **FOOD** **RESTAURANT** **EAT** **DRINK**
~~GRUB~~ ~~BEANERY~~ ~~CONSUME~~ ~~SWIG~~
 - form-independent
 - **DRINK** vs. **DRINKS** vs. **DRINKING** vs. **DRANK**
→ different structures of various grammatical roles might be linked to the same CONCEPT

Form Independence principle

PVO

- Each Example contains learned **structures**(s) and additional information

Example 1 collocative content for Concept 1

Cultural schemas & annotation

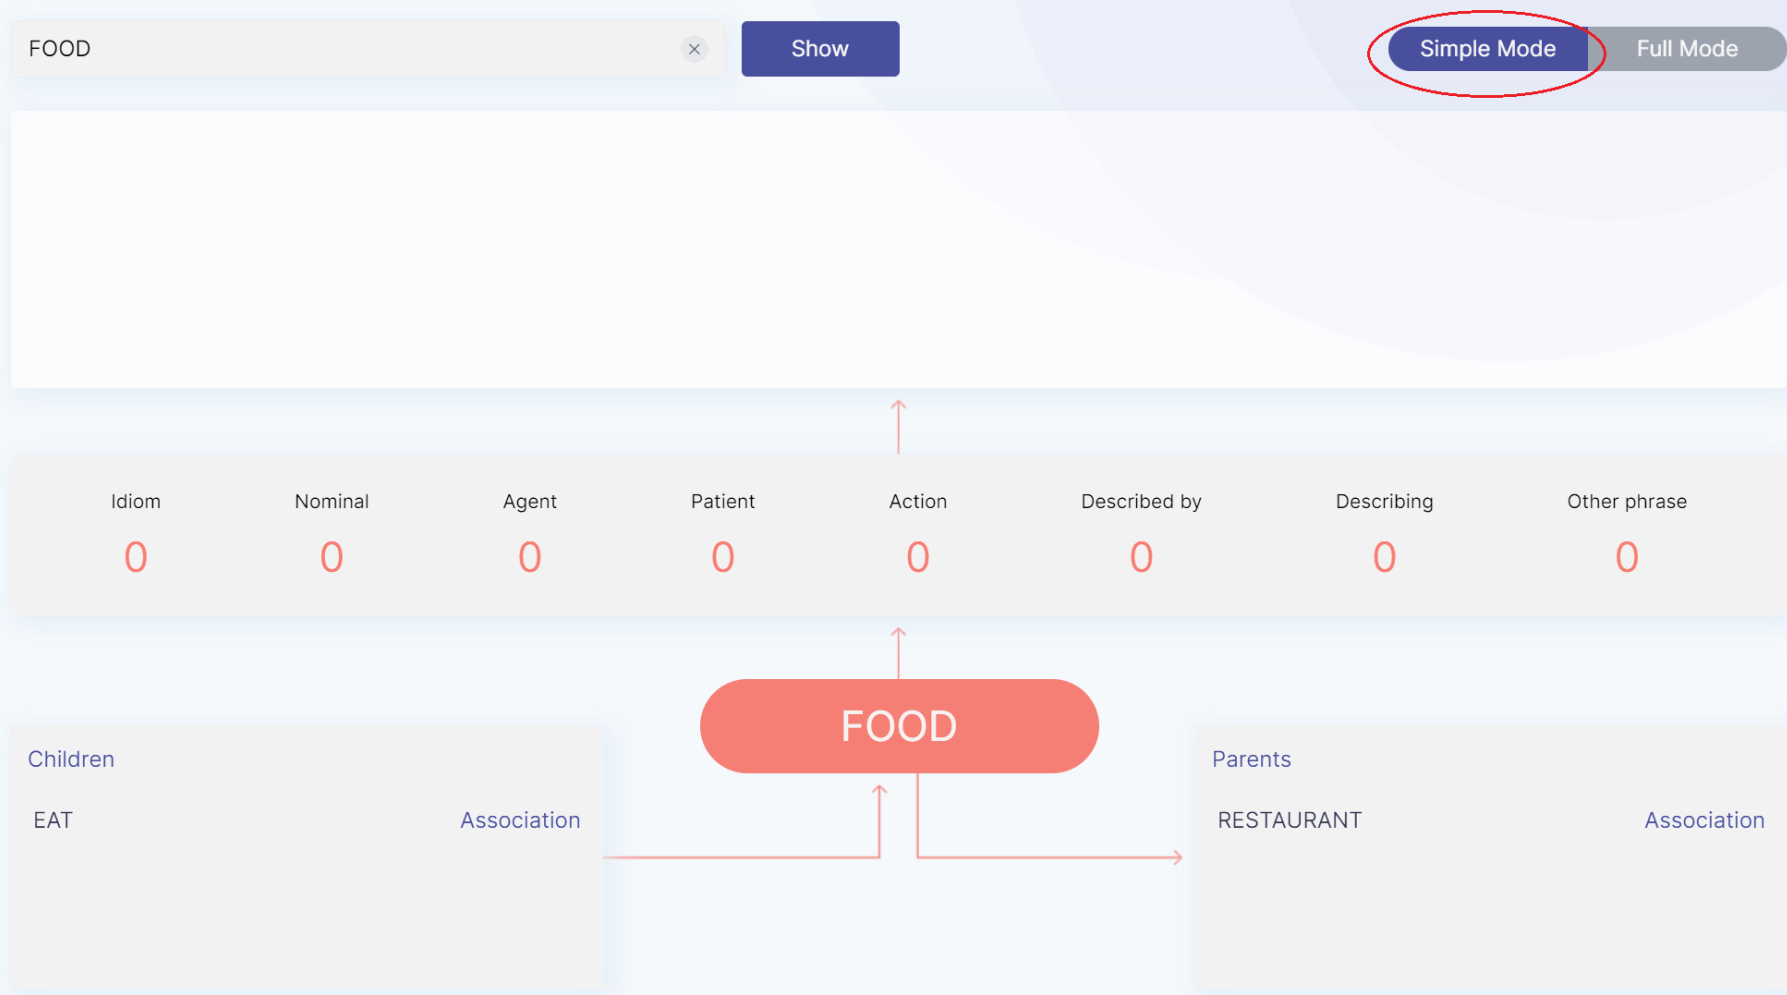

Slide No 18 DEMONSTRATION

- Sample entries for
 - RESTAURANT
 - FOOD
 - EAT

Slide No 19 CONCEPT-CONCEPT RELATION

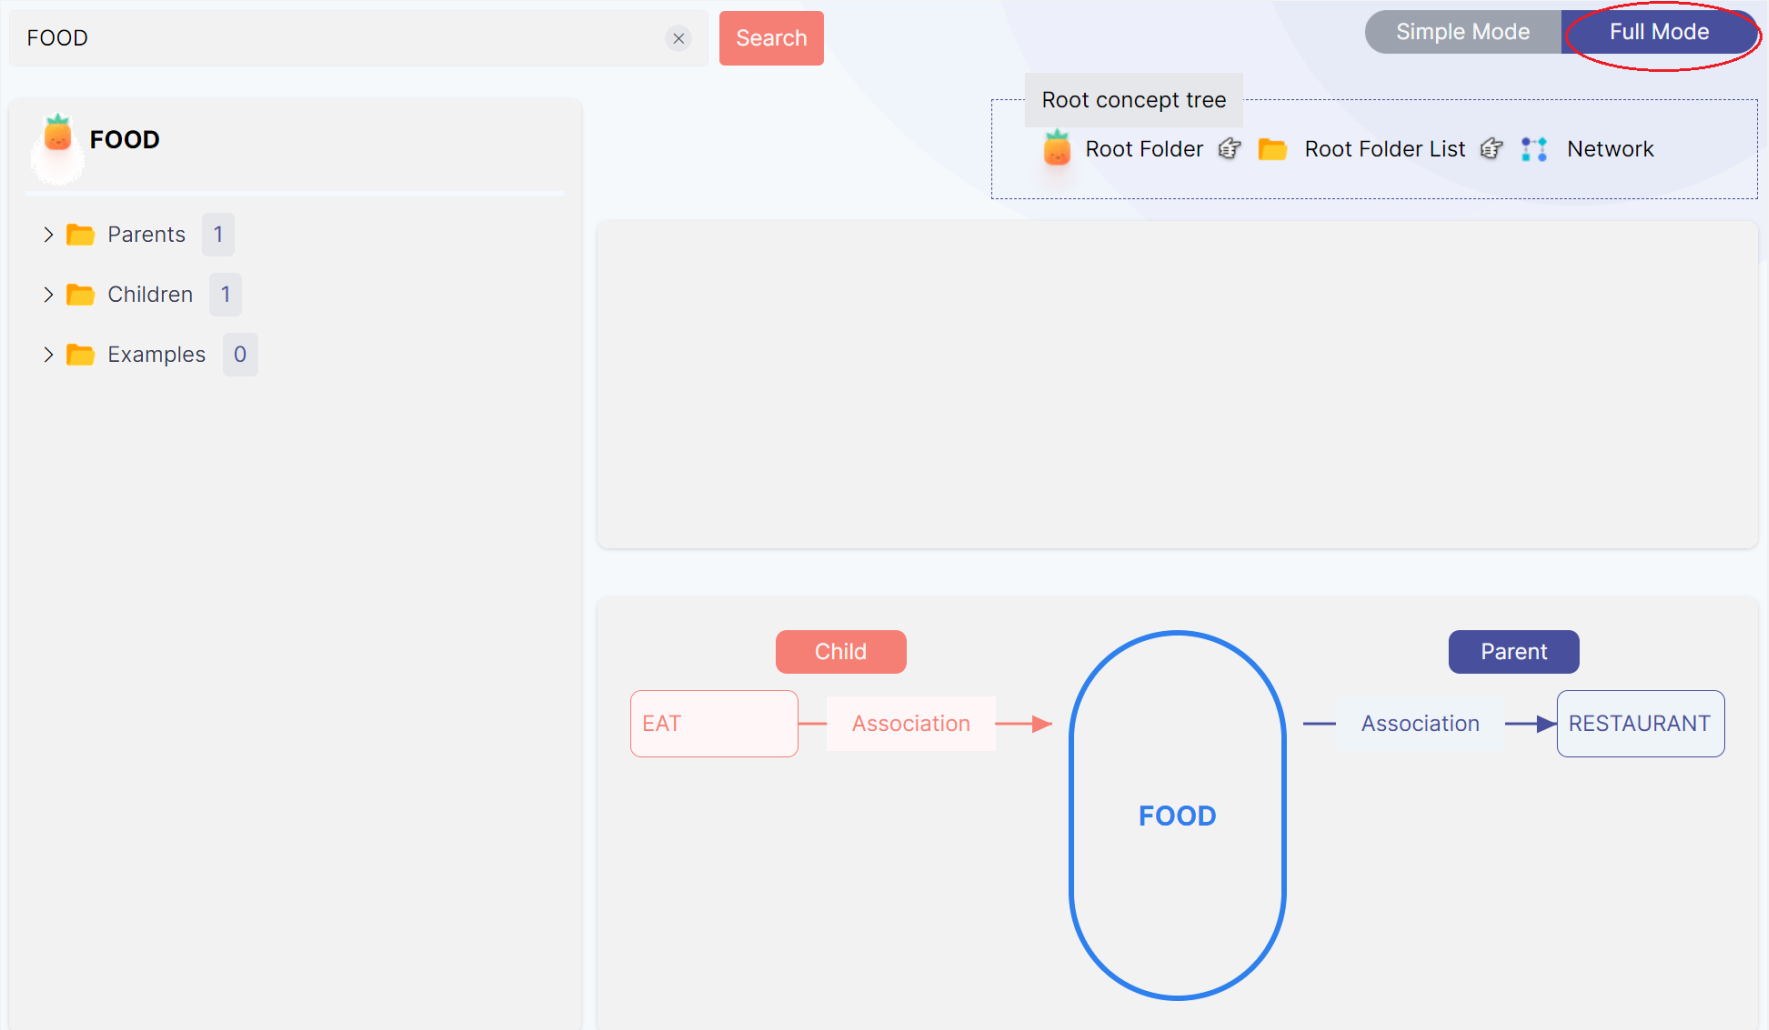

- ASSOCIATION
 - EAT → FOOD → RESTAURANT

Slide No 20 CONCEPT-CONCEPT RELATION

- ASSOCIATION

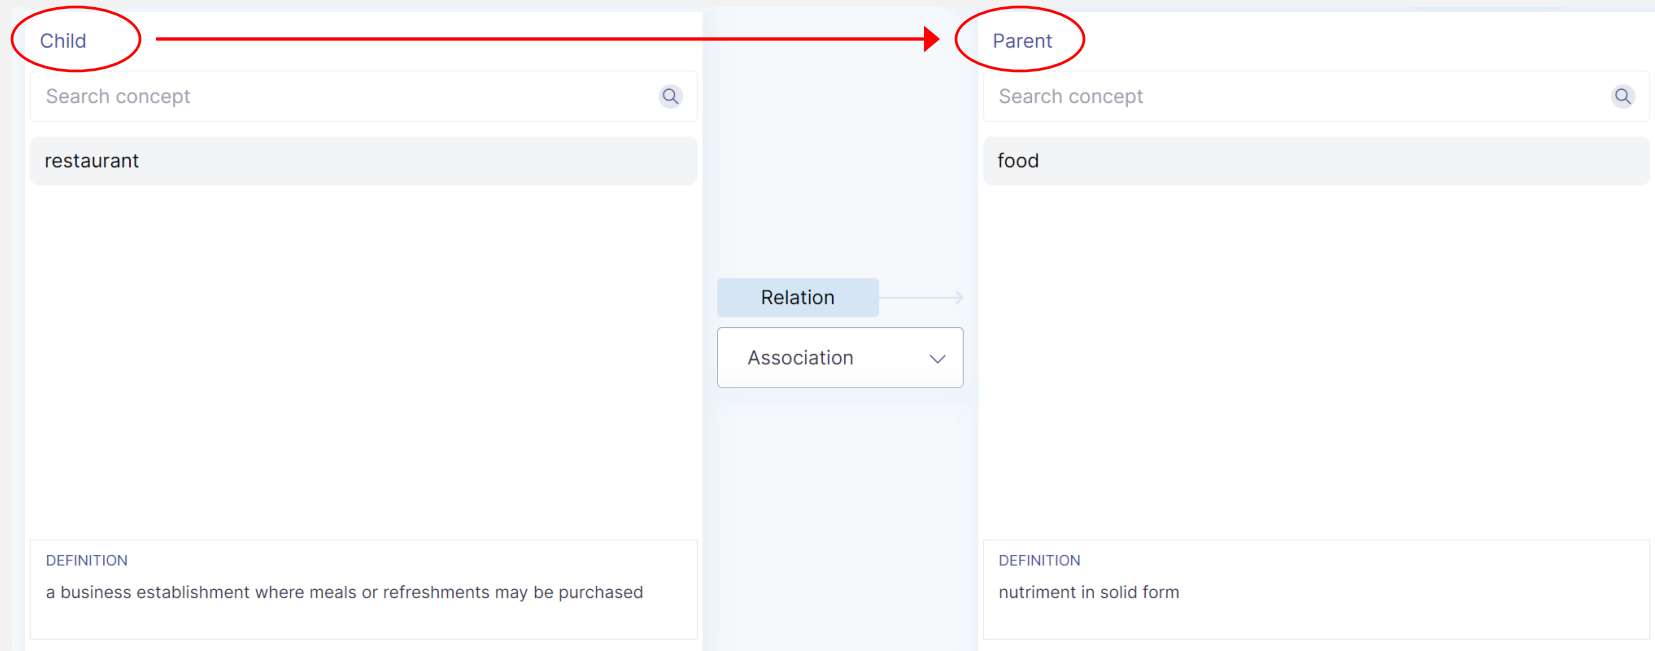

– RESTAURANT, EAT, DRINK, COOK → FOOD

Slide No **21** CONCEPT-CONCEPT RELATION

- ASSOCIATION
 - STORM, RAIN, FLOOD → WEATHER
 - ROOF, DOOR, WINDOW, KITCHEN → BUILDING
 - EYE, MOUTH, NOSE → FACE
 - KNEE, ANKLE, THIGH → LEG → BODY
- TYPE OF
 - BLACK, RED, GREEN, YELLOW → COLOR
 - DOG, HORSE, CAT → MAMMAL
 - DOG, CAT → PET; HORSE → CATTLE
- NO LINK: to remove an existing link

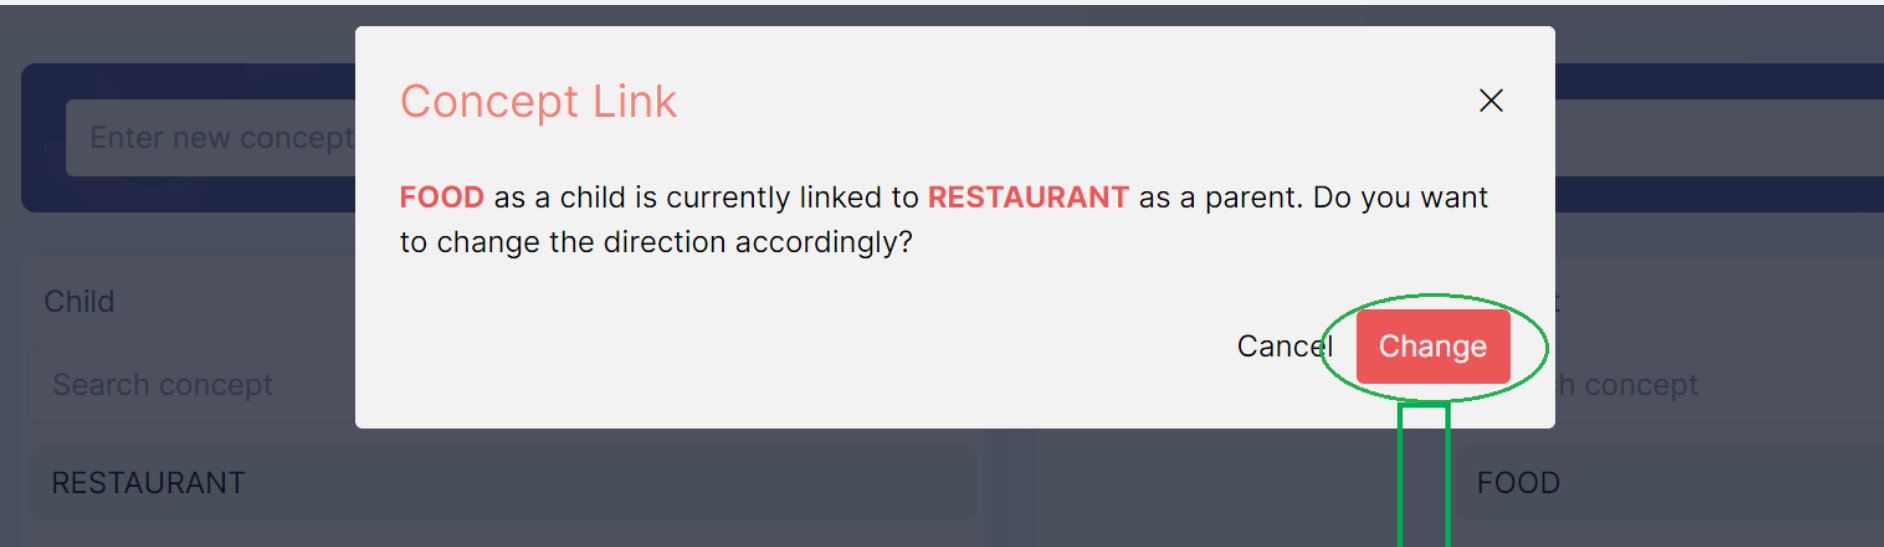

Hierarchy
principle

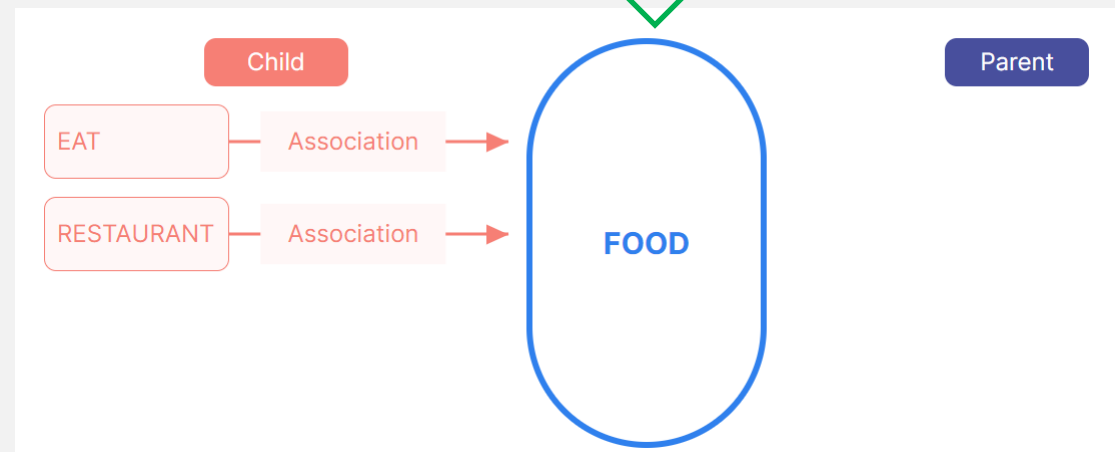

- Linking should be based on ~~transient~~ **permanent association**
 - **Directional** links: the more general, encompassing or logically preceding CONCEPT as *parent*
 - DOG → MAMMAL → ANIMAL → ORGANISM
 - CHEF → RESTAURANT → FOOD
 - RESULT → REASON
- Hierarchy ↔ Directionality**

Slide No 23 CONCEPT-CONCEPT RELATION

- No circular links

**Directionality
principle**

Cultural schemas & annotation

The screenshot shows a user interface for linking concepts. On the left, a text box contains the sentence "Grab me some good grub from the cafeteria downstairs, please." with the word "grub" highlighted in a red box. To the right of the text box is a "Relation" dropdown menu with options: "No Link", "Idiom", "Nominal", "Agent", "Patient", and "Action". The "Nominal" option is currently selected. To the right of the relation menu is a "Concept" search panel. It has a search bar with the placeholder text "Search concept" and a magnifying glass icon. Below the search bar, the word "FOOD" is displayed. Underneath "FOOD", the word "DEFINITION" is shown in blue, followed by the text "something we eat".

- Linking should be based on **core message** ~~literal wording~~
 - food for thought → FOOD?
 - no wonder → WONDER?
 - could eat a horse → EAT? HORSE?

EXAMPLE-CONCEPT RELATION

The screenshot shows a software interface for analyzing a sentence. On the left, a text box contains the sentence: "Grab me some good **grub** from the cafeteria downstairs, please." The word "grub" is highlighted in a red box. To the right of the text box is a dropdown menu labeled "Relation" with the following options: "No Link", "Idiom", "Nominal", "Agent", "Patient", and "Action". The "Nominal" option is currently selected. To the right of the dropdown menu is a panel labeled "Concept". It has a search bar with the text "Search concept" and a magnifying glass icon. Below the search bar, the word "FOOD" is displayed. Underneath "FOOD", the word "DEFINITION" is shown in a smaller font, followed by the text "something we eat".

- **core message** ~~literal wording~~ based
 - food for thought → THINKING ~~FOOD~~
 - no wonder → SURPRISE or UNSURPRISED ~~WONDER~~
 - could eat a horse → HUNGRY ~~EAT HORSE~~

Core Message principle

Grab me some good grub from the cafeteria downstairs, please.

STRUCTURES

Nominal (CONCEPT: FOOD) → *watch sample clips* (**grub**)

- Where's the **grub**, **bub**? [rhyming]
 - No way Jose. No chance Lance.
 - What's shakin', bacon.
What's the deal, Banana Peel.
What's up, Buttercup.
 - See you later, Alligator → **Examiner**
After while, Crocodile.

STRUCTURES

- You **drive a hard bargain**. → *watch additional sample clips*
- **bargain** [N] vs. **haggle** [I→N, ON] vs. **negotiate** (**price**) [N→F]
 - To **haggle** is to **bargain** with more effort, sometimes to the point of annoying the other person.
- I was gonna **leave a little room to haggle**.
 - **giá có fix** (**nhẹ**)?
 - there's a (**little**) **room for bargaining** | **haggling**
 - **nói thách**?

STRUCTURES

- nói thách?
 - start high | hike up the price (to leave room for haggling)
- không nói thách? miễn mặc cả?
 - The popsicles are a set price. They are not negotiable.
 - set | fixed [N] vs. no-haggle [I→N] vs. non-negotiable [N→F] price
 - Take it or leave it [S]
- Let's meet in the middle: 3 dollars each.
- You got yourself a deal.

STRUCTURES

- You're getting paid **squat**.
 - **nothing** [N] vs. **squat** [I] vs. **absence of all quantity** [F]
 - **Nothing** I could say would cheer her up.
 - The arithmetical symbol 0 denotes **the absence of all magnitude or quantity**.
- **The numbers don't lie.**
- We rely on parents to supervise our **after-school** programs.
 - **after-school** vs. **extra-curricular**

Nominal (CONCEPT: FOOD)

- The plan is widely used as **fodder** for horses.

→ FOOD: *nominal*

→ ANIMAL: *other phrase*

Intersection principle

- **thức ăn hạt?**

- **Kibble** (small, dry pellets of processed food) is the most popular type of food for dogs, cats and some other pets.

→ FOOD: *nominal*

→ DOG: *other phrase*

→ CAT: *other phrase*

or

→ PET: *other phrase*

DOG → PET: *type of*

CAT → PET: *type of*

FISH → PET: *type of*

Intersection principle

Slide No 39 EXAMPLE-CONCEPT RELATION

Nominal (CONCEPT: MARRIAGE)

marriage [N] vs. match [I→N] vs. matrimony [F] vs. wedlock [O]

- She has two children by a previous marriage.
- Their match was considered the marriage of the year in Hollywood.
- We intend to be joined in matrimony until “death do us part”
- Wedlock these days is determined not by the heart but by one's fortunes.
He was born out of wedlock.

Slide No 40 EXAMPLE-CONCEPT RELATION

Agent (CONCEPT: FOOD)

spoil [N] vs. go bad [I→N] vs. decay [N→F]

- We'd better eat the fish before it spoils.
- These sausages will go bad if you don't put them in the refrigerator.
- Food decays because micro-organisms such as bacteria, yeasts and fungi feed on the food and break it down.

Agent (CONCEPT: MARRIAGE)

- The couples, married for 5 years, feel that their marriage is falling apart.

Slide No 41 EXAMPLE-CONCEPT RELATION

Patient (CONCEPT: FOOD)

- He **gobbled** a massive beef **sandwich**, **washing it down** with a bottle of beer.

→ FOOD: *patient*

→ EAT: *action*

M:M principle

Patient (CONCEPT: MARRIAGE)

- The couple had **registered** their **marriage**, **celebrating** it with a grand party, but never actually **consummated** their marriage.

EXAMPLE-CONCEPT RELATION

Action (CONCEPT: EAT)

eat [N] vs. have [S] vs. consume [F]

- [nuance: eagerness] play with one's food < eat < devour
 - The cats devour turkey with head down and tail up.
 - He's just playing with his food feeling not really hungry.
 - [nuance] devour [N] vs. gobble [ON]
 - Don't gobble your food like that!
- [nuance: speed] nibble < eat < bolt
 - I often eat on the move and have to bolt my food.
 - I nibbled a doughnut.

EXAMPLE-CONCEPT RELATION

Action (CONCEPT: MARRIAGE)

marry [N] vs. tie the knot [I] vs. espouse [F, O] vs. wed [O, J]

- I'll say, will you marry me?
- They tied the knot soon afterwards and have been happily married for 16 years
- He heeded [F] his father's advice to espouse someone with whom he had common interests.
- The couple plan to wed next summer.

Slide No 44 EXAMPLE-CONCEPT RELATION

Described by (CONCEPT: FOOD)

- I had enough **plastic** hotel and airline **food**. I wanted proper **home-cooked meals**.

Thanh Phan

6. Thầy cho em hỏi trong trường hợp đồ ăn bị thiu thì có thể link "go bad" với concept "food" qua mối quan hệ là mô tả không ạ? Hay mối quan hệ mô tả chỉ áp dụng với các example mà từ cần lưu đóng vai trò như tính từ/ trạng từ của concept ạ?

Like Reply 6 d Edited

Vu Ho Author Admin

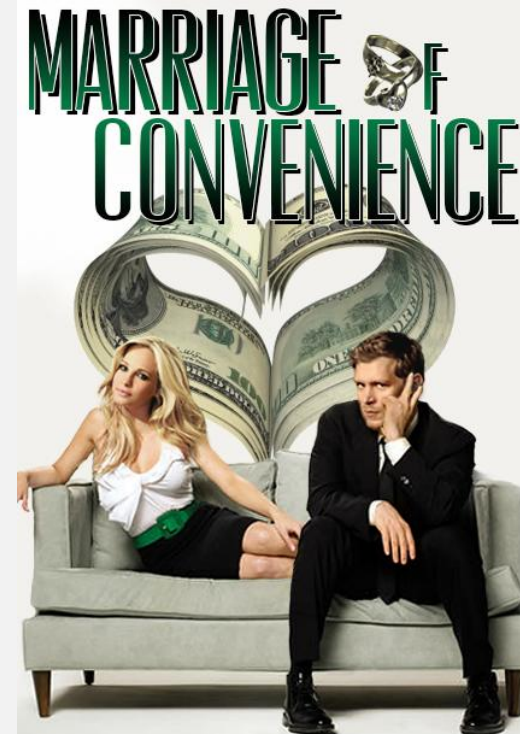

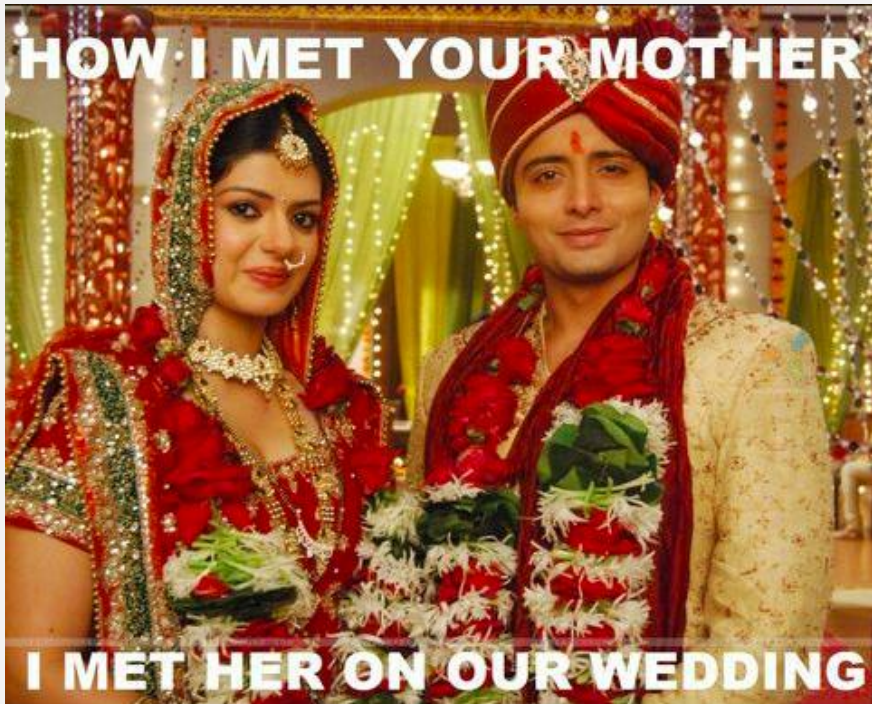

Thanh Phan Describing về cơ bản là adj/adv cho nên nếu lưu vào mục này với thức ăn bị thiu thì nên link với những từ như bad hay rotten.

Tuy nhiên em vẫn có thể link như em đề xuất nếu từ góc nhìn của em: go bad đóng vai trò giống như chỉ tính chất nhiều hơn là hành động. Ko bắt buộc phải theo quy tắc ngữ pháp chính thống.

Slide No 45 EXAMPLE-CONCEPT RELATION

Described by (CONCEPT: MARRIAGE)

- a consensual vs. forced vs. arranged marriage
vs. consanguineous marriage
vs. reward marriage
vs. sham marriage [ON]
vs. marriage of convenience [ON] → watch sample clips

STRUCTURES

- Dad, I want you to **arrange a marriage for** me.
 - Why do you have to **romanticize** everything?
 - I need to ask you a few questions regarding your **criminal record**.
- *PVO?*

SAMPLE SOLUTIONS

- Dad, I want you to **arrange** a **marriage** for me.
→ MARRIAGE: *patient*
- Why do you have to **romanticize** everything?
→ ROMANCE: *action*
- I need to ask you a few questions regarding your **criminal record**.
→ CRIME: *other phrase*

Q&A

Thưa thầy, trong khi mày mò về PVO, em có thắc mắc nhỏ là nếu một từ mà nhiều nghĩa, ví dụ như drink, có thể vừa là danh từ, vừa là động từ, nếu là danh từ có thể kết nối với beverage, nhưng nếu là động từ, em có thể liên kết với sip, swig, vậy trong trường hợp này em nên tạo thêm từ mới hay thêm vào cùng 1 concept luôn ạ thầy, vì em thấy trường hợp nào hình như cũng hơi rối.

Form Independence principle

Dang Huong

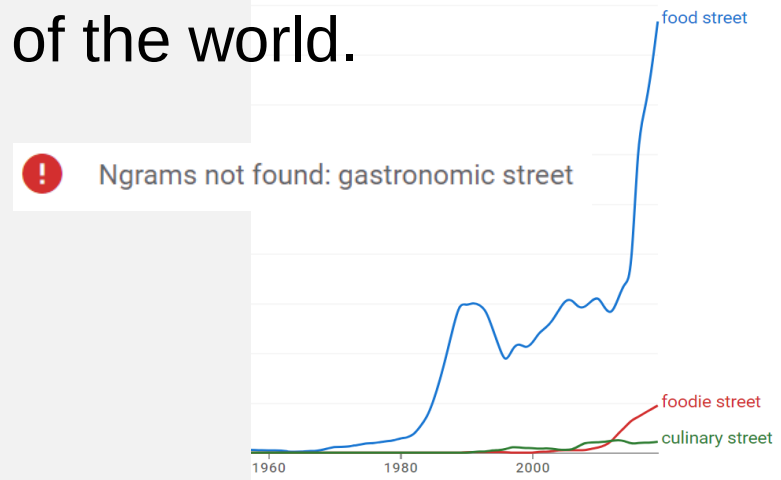

4. Em muốn hỏi: khi học đến slide 48, em thấy từ defer được sử dụng trong câu ví dụ ở 2 dạng là defer (v) và deferment ('n). Việc này làm em suy nghĩ về 1 vấn đề, đó là khi học Vocab, ngoài việc học theo tri-fold để biết các từ cùng nghĩa ở những tone khác nhau, thì đối với mỗi từ thuộc một tone, chúng ta có cần thiết phải tra và học luôn các dạng của từ đó xem noun/verb/adj/adv của nó viết và đọc như thế nào ko ạ? Em nhớ buổi đầu tiên thầy

Slide No 49 EXAMPLE-CONCEPT RELATION

Describing (CONCEPT: FOOD)

food [N] vs. foodie [I] vs. culinary [N→F] vs. gastronomic [F, OP]

- Here is the list of Bangkok's best food streets.
- This foodie hotspot [I] have options to suit all tastes and budgets. | Several new restaurants are helping to create a 'foodie quarter' in the town centre.
- A three course dinner completes the culinary delights.
vs. Paris is the gastronomic capital of the world.

Slide No 50 EXAMPLE-CONCEPT RELATION

Describing (CONCEPT: MARRIAGE)

marital [N] vs. matrimonial [F, LW] vs. conjugal [F, L]

- She wanted to talk about their marital problems.
- This establishes the matrimonial contract and the legal rights of the couple.
- Conjugal love is the love between married people, characterized by companionship and security, not excitement and passion, which characterize romantic love.
 - Conjugal is best known for its use in conjugal visits, in which a prisoner is allowed to meet privately with their spouse for the purpose of having sexual relations.

Slide No 51 EXAMPLE-CONCEPT RELATION

Idiom (CONCEPT: FOOD)

- Indian food disagrees with vs. agrees with me.
- Add salt to taste and enjoy.
- Is Karen still eating you out of house and home [I, H]?
- ngòì vào mâm đi cả nhà?
